Subject: New PDP Commodities
Date: Friday, January 02, 2015 2:54:52 PM

Hi David,

We will have a couple of commodities to replace in July and PDP labs will want to know what we've chosen before the April meeting. Any ideas here? I know you mentioned tea and some other things that might be more long-term, as in October or later.

Some things that come to mind that are probably short term must dos or should dos: lettuce (last tested in 2011) and cucumbers (last tested in 2010). Also sweet potatoes were last tested in 2010 as was asparagus. We are planning to add peanut butter April 1. Maybe we can talk in the next couple of weeks.

Thanks,
Diana
